

Date of Birth: July 10, 1961

Address: University of Colorado at Boulder
Department of Molecular, Cellular and Developmental Biology
Campus Box 347
Boulder, Colorado 80309-0347

Education:

1. Harvard University, Cambridge, Massachusetts. Ph.D. in Biophysics, 1989.
2. Barnard College, New York, N. Y., B.A. in Biochemistry, Magna Cum Laude, 1983.

Fellowships/Funding:

September 1989 to August 1992: NSF Postdoctoral Research Fellowship

July 1995 to June 1996: University of Colorado, Junior Faculty Development Award from the Council on Research and Creative Work (\$5000). Project Title: Screen for Plants with Defective Regulation of a Defense Gene.

July 1995 to June 1996: Colorado Institute for Research in Biotechnology Award (\$5000). Project Title: Screen for Plants with Defective Regulation of a Defense Gene. (Matching funds for JFDA).

Positions Held:

September 1983 to August 1989: Graduate student, Department of Biochemistry and Molecular Biology, Harvard University. Supervisor: Bruce Dimple. Research Area: Adaptive Responses to Oxidative Stress in *E. coli*

September 1989 to December 1994: Postdoctoral Fellow, Dept. Molecular Biology at Massachusetts General Hospital and Dept. of Genetics, Harvard University. Supervisor: Frederick M. Ausubel. Research area: Plant Pathogenesis

January 1995 to present: Assistant Professor Molecular, Cellular and Developmental Biology Department. Research area: Plant Pathogenesis.

Scholarly Activities:

Invited lecturer for the Arabidopsis Training Grant at the University of Wisconsin January 26, 1995. Seminar Title: Analysis of Cell Death Mutants of *Arabidopsis*.
